2023 NATIONAL COMPETITION WINNERS

1st Place – University of California - San Francisco School of Pharmacy

Linda Cheng & Siavash Panahi

2nd Place – University of Texas at Austin College of Pharmacy

Justin Ashburn & Weston Esplin

3rd Place – Rutgers, The State University of New Jersey Ernest Mario School of Pharmacy

Alexander Michno & Samuel Yang

Dear ASHP Clinical Skills Competition Coordinator:

Thank you for your efforts in coordinating your school or college of pharmacy's competition this year. Your role is vital to the success of this program both locally and nationally.

Please review the materials thoroughly and contact us with any questions. We hope that this handbook is a useful resource for you and welcome your feedback.

Here are some important points to remember that will help make your competition successful:

- Work with your respective ASHP state affiliate organization and/or student society of health-system pharmacy (SSHP) to promote, organize, and conduct the competition.
- Create awareness among student participants of the forms and guidelines contained in this handbook.
- Omit participant names from the competition forms to preserve confidentiality and prevent bias. A number or letter may be used to identify teams on the forms.
- Students should receive feedback on their work by receiving copies of their forms and evaluators' comments.
- Recognize supporters and volunteers.
- Most importantly – HAVE FUN!

This handbook covers all you need to know to run a successful competition; however, you may contact the ASHP Pharmacy Student Forum staff with specific questions at students@ashp.org.

Please note, the Clinical Skills Competition (CSC) forms and cases are copyrighted and, thus, property of ASHP. Duplication and distribution of these materials is permissible for purposes of the competition only.

Best regards and good luck!

Introduction

The purpose of the Clinical Skills Competition (CSC) is to encourage and recognize excellence in clinical skill development for pharmacy students. The CSC is designed to facilitate an interactive, team-based analysis of clinical scenarios for health-system pharmacists. The CSC provides pharmacy students the opportunity to enhance their skills in collaborative practice with physicians in providing direct patient care.

The goals of the Clinical Skills Competition are to:

1. Foster the development of clinical practice skills using all available resources;
2. Reinforce the pharmacist's responsibility for optimal drug therapy outcomes;
3. Facilitate the effective use of a systematic approach to clinical problem-solving; and
4. Utilize written and oral communication skills.

In the CSC, students work in pairs on a timed case study. These teams compete by demonstrating their skills in assessing patient information and current therapy, identifying and prioritizing drug therapy problems, identifying treatment goals, and formulating a comprehensive pharmacy care plan. A panel of judges then determines the winner of the competition using a standardized set of evaluation criteria.

Schools and colleges of pharmacy are encouraged to conduct a Preliminary Round (local-level) Clinical Skills Competition on their campus in the Fall. One winning team from each ACPE-accredited institution is invited to advance to the national-level Semi-Final Round competition held during the ASHP Midyear Clinical Meeting (MCM) in December. ASHP will provide each competing team of two students with a complimentary registration to attend the MCM. Note: ASHP cannot process a complimentary Midyear Clinical Meeting registration for a student who is not a current ASHP member.

Important Dates & Deadlines

June – August 2024

- Designate a faculty coordinator for the Preliminary Round (local-level) CSC
- Review CSC Coordinator Handbook
- Ask ASHP state affiliate to sponsor the CSC (e.g., provide lunch, prizes, etc.)
- Work with school to secure funding for winning student team to attend the ASHP Midyear Clinical Meeting
- Complete online Form A by **July 15** (available at <http://www.ashp.org/clinicalskills>)
- Determine a date and time for the CSC (to be held before November 1)

August – September 2024

- CSC faculty coordinators receive **confidential** case and answer key (these documents will be emailed in early August)
 - *Note: student coordinators are not eligible to receive these files*
- Reserve room in school for CSC (ideally each table would have two chairs for teams to work together) or prepare virtual platform
- Reserve video equipment if recording oral presentations for judges
- Schedule an informational meeting for students to learn about the CSC
- Promote CSC in:
 - All didactic classes
 - Experiential rotations
 - Student Society of Health-System Pharmacy (SSHP)
 - Other pharmacy student societies
 - Pharmacy fraternities, sororities, organizations, etc.
 - ASHP state affiliate
- Display posters (enter your CSC's date/time) around your school to publicize the event. Posters are shipped to SSHP faculty advisors with ASHP's student membership materials in July and are available for download on the CSC website (available at <http://www.ashp.org/clinicalskills>).
- Display flyer from Wolters Kluwer Health about the free trial of Lexi-Complete® for students competing this year. The flyer is available on the CSC website (<http://www.ashp.org/clinicalskills>).
- Email, post online and/or print promotional flyer available online.
- Recruit judges for CSC (e.g., state affiliate members, experiential rotation preceptors, faculty, residents in local ASHP-accredited residency programs)
- Schedule judges' workshop/meeting to review case and evaluation forms
- Send students the following upon registering:
 - Competition date, time, and location
 - Patient Case and Pharmacist's Care Plan (blank form)
 - Practice case and answer key from previous local and national-level CSC competitions (also available online)
 - A list of references available during the competition
 - Evaluation criteria

September – October 2024

- Send judges the following before the competition:
 - Competition date, time, and location
 - Evaluation criteria
 - Official CSC Preliminary Round (local-level) case and answer key [CONFIDENTIAL]

September – October 2024 (cont.)

- Conduct judges' workshop
 - Review case answer key, discuss scoring and questions for oral presentation round
- Remind students of the local registration deadline to compete in the CSC
- Copy the official CSC local-level Preliminary Round case and the accompanying forms
- Gather references to be used in CSC
- Conduct CSC**
- Once winner information is known:
 - Ensure that winning team members have a current ASHP membership and submit their names via online Form B by November 1 (available at <http://www.ashp.org/clinicalskills>).
 - ASHP staff will process complimentary meeting registrations for winning team on a rolling basis (by November); notifications will be sent sometime in the month of November due to the large number of CSC participants
 - If needed, ASHP will process refunds for students who already purchased a meeting registration; however, refunds may take a few weeks to be reflected in the student's account or on their credit card/bank statement.
 - Work with the winning student team to plan travel itinerary and reserve hotel room(s) at the Midyear Clinical Meeting (see midyear.ashp.org); winning teams should plan to arrive the Friday before the National Competition to ensure they are ready to compete during their assigned timeslot on Saturday
- Report the winners of the CSC to the state affiliate and pharmacy school administration
- Provide feedback to student participants; Return case materials to students, distribute answer key and hold debrief session to discuss case

November 2024

- Prepare winners to participate in the National Clinical Skills Competition at the ASHP Midyear Clinical Meeting
 - All student participants will receive information from ASHP in early November related to competing in the National CSC at the ASHP Midyear Clinical Meeting – including details on final assigned competition time (for Saturday) and the status of their complimentary meeting registration

December 2024

- Saturday, December 7, 2024:** Semi-Final Round, National Clinical Skills Competition (*written*) held at the ASHP Midyear Clinical Meeting and Exhibition in New Orleans, Louisiana
 - Note: Closed session – only student participants allowed
- Sunday, December 8, 2024:** Final Round, National Clinical Skills Competition (*oral*) held at the ASHP Midyear Clinical Meeting and Exhibition in New Orleans, Louisiana
 - Note: Open session – all meeting registrants encouraged to attend
 - A case review session with the national case writer is scheduled immediately following the conclusion of the oral round (*this session is open to all student participants as well as all meeting registrants*)
- Monday, December 9, 2024:** The winning team of the National Clinical Skills Competition is announced during the Opening Session of the ASHP Midyear Clinical Meeting and Exhibition in New Orleans, Louisiana

February 2025

- [Date TBD]: Case Study CE Webinar based on the 2024 CSC Local Case (*open to all ASHP members*)
- [Date TBD]: Case Study CE Webinar based on the 2024 CSC National Case (*open to all ASHP members*)

Preliminary Round (Local-Level) Competition

Eligibility

Preliminary Round (local-level)—Eligibility to participate in the preliminary round (local-level) CSC will be determined by the local-level CSC faculty coordinator or other officials such as ASHP staff. Schools may use the national-level CSC criteria and/or impose additional eligibility restrictions at their discretion. Note that while students are not required to be ASHP members to compete in the preliminary round (local-level) competition, only ASHP student members enrolled in ACPE-accredited (including “candidate” status) pharmacy programs are eligible to advance to the national-level competition. Schools must confirm membership status of the winning team members by providing valid ASHP member ID numbers when submitting information to ASHP online via completion of Form B. ASHP cannot process a complimentary Midyear Clinical Meeting registration for a student who is not a current member.

Semi-Final and Final Rounds (national-level)—Eligibility to participate in the national-level CSC is open to ASHP student members enrolled in a full-time ACPE-accredited Doctor of Pharmacy program who have not yet been licensed to practice or who hold a license but have not yet practiced. One winning team of two (2) students from each ACPE-accredited (including “candidate” status) pharmacy program is invited to advance to the national level competition.

It is important to note that only one Preliminary Round (local-level) competition may be held per ACPE-accredited school or college. Schools with more than one campus should collaborate to hold a joint competition and determine the winning team to represent the entire school.

NOTE: Students who are enrolled in a Doctor of Pharmacy program and are currently licensed practitioners are not eligible to participate in the CSC unless they have never practiced pharmacy in any state.

Confidentiality

ASHP and the CSC coordinators believe it is critical for students to conduct themselves in a manner consistent with the best ethical principles of the profession of pharmacy. Students should participate in the competition in accordance with the rules and regulations detailed in the CSC handbook. Students should not share knowledge of the case outside of their team or outside of the competition. The CSC registration form contains a confidentiality statement; it is mandatory that all student competitors sign this statement.

Registration

Eligible students are encouraged to register in self-selected teams of two. However, individual students may sign up to be placed in teams of two by the Preliminary Round (local-level) CSC faculty coordinator. Registration should be completed at least two weeks before the competition. Please use the registration form included in this handbook (see page 13). Although there is no registration fee for the preliminary round (local-level) competition, it is expected that the winning team from each school will participate in the national competition, and there are travel and lodging costs associated with participation at the national level. Please review eligibility requirements for the national-level competition before selecting winning team.

CSC Cases

ASHP will provide all participating schools or colleges of pharmacy with an electronic copy of the official local-level CSC case. The previous year’s CSC national and local-level cases with answer keys will be available on the ASHP website for students to download to practice and prepare for their Preliminary Round (local-level) competition. The national case is generally more challenging than the local-level case. Please note that competition cases are not limited to a particular practice setting, disease state, or type of drug therapy.

Clinical Skills Competition Format

Part I: Written Case

Each student team has two (2) hours to write a Pharmacist's Care Plan for the case provided. ASHP will provide the official Preliminary Round (local-level) case to the CSC faculty coordinator for the school or college. Student coordinators are not eligible to receive the case materials.

Each team packet for the written competition should include the following documents:

- 1 CSC local-level Preliminary Round Case
- 1 Patient Case
- 3 Pharmacist's Care Plans*
- 2 Sheets of blank paper

**Several blank copies of this form should be distributed to students upon registration (7 copies are supplied at the national-level)*

Patient Case

This form will contain the patient's demographic, administrative, medical, laboratory, drug therapy, behavioral, and socioeconomic information. This is the information students will need to make patient-specific drug therapy decisions that reflect pharmaceutical care. **This form is for the students' reference only—it will not be scored by the judges.**

Pharmacist's Care Plan

The Pharmacist's Care Plan is the only document that will be reviewed and scored by the judges.

Ideally, each team's Care Plan should clearly outline each drug-related problem found in the case, including (but not limited to) treatment of all acute and chronic disease, resolution of all actual and/or potential drug-related problems, recommendation of additional healthcare services from which the patient may benefit, and identification of appropriate risk factor reduction and disease prevention strategies.

Students should be instructed to complete their Care Plans in the following manner:

- "Health Care Problem" column: List all healthcare problems that need to be addressed in this patient.
- "Priority" column: Prioritize the problems by indicating the appropriate number where:
 - 1** = Most urgent problem (there can only be one urgent problem)
 - 2** = Other problems to be addressed immediately or during this clinical encounter **OR**
 - 3** = Problems to be addressed later (e.g. a week or more later/at discharge or next follow up visit)
- When identifying individual problems for the case, use more specific terms when possible vs. general disease conditions
- For each problem, describe the following:
 - Therapeutic goals
 - Recommendations for therapy
 - Pharmacologic and non-pharmacologic therapies
 - Monitoring parameters and therapeutic endpoints
 - Frequency of follow-up
 - Endpoints should be measured using defined parameters
 - Clinical, laboratory data; quality of life, etc.
 - Set target dates for achieving endpoints

**Please note, there should be only a “1”, “2”, or “3” listed in the priority column, and the number “1” should only be used once. When identifying individual problems for the case, use more specific terms when possible vs. general disease conditions. Also, use actual rather than weight-based doses when providing recommendations for therapy.*

References

It is best practice for student teams to have an adequate supply of references to consult during the written portion of the competition (at least one copy of each reference for every five teams is suggested). Schools are free to provide electronic or hard copy references for the local competition. Schools should inform participating students in advance which references will be available during the local competition. Core references supplied by the school should include texts that provide information on the following topics:

- Therapeutics
- Drug information
- Drug interactions
- Interpretation of laboratory data
- General medicine
- Pharmacokinetics

Students competing in local-level competitions will also have access to a free trial of Lexi-Complete® (generously provided by Wolters Kluwer) and may access it on their personal mobile devices during the written portion of their local competition.

For the Semi-Final Round (national-level) competition in December, students are encouraged to bring a fully-charged personal laptop and/or tablet (maximum 2 per team) to the competition room for the purposes of conducting research. ASHP will not provide devices (e.g., laptops or tablets) for student use.

Participants will have electronic access to AccessPharmacy (generously provided by McGraw Hill) and Lexi-Complete® (generously provided by Wolters Kluwer). They will also have unrestricted internet access throughout the Semi-Final Round. Students are welcome to visit additional websites such as UpToDate or Micromedex if they have those available (either personally or through their school). Students should review access instructions for AccessPharmacy and Lexi-Complete® in advance of the national-level competition. Other computer software and/or electronic devices (e.g., smart phones, PDAs, etc.) will not be allowed at the national competition. **The use of personal or classroom notes and collaborative documents are prohibited at the national competition.**

ASHP is grateful for the support of McGraw Hill and Wolters Kluwer. Students will have full use of the free trial of Lexi-Complete® until after the close of the national competition in December. Those who do not already have a subscription can sign up using the flyer found on the CSC website.

Part II: Oral Case Presentation

Upon completion of the written portion of the competition, each student team will give an oral presentation to the judges justifying their care plan recommendations. A total of ten (10) minutes will be allotted for each presentation, which includes a two (2) minute presentation period and an eight (8) minute question and answer period.

Two (2) minute student case presentations should include the following:

- The students’ names and school or college of pharmacy
- Brief summary of the patient’s condition, listing all health problems that require immediate attention
- Complete treatment plan **for the most urgent problem only**, including therapeutic goals, recommendations for therapy, monitoring parameters, and endpoints

Example:

“Hello, my name is Michael Smith and this is my teammate Sarah Jones. We are students at the ACME University School of Pharmacy. Our patient SJ is a 77-year old female admitted with a CVA, hypertension, and probable bacterial pneumonia, all of which require immediate attention. The CVA is his most urgent problem. After ruling out hemorrhagic stroke with a CT/MRI, our therapeutic goals are to stop progression of the intracranial thrombosis, prevent further neurological damage, and minimize complications of therapy. We chose to begin IV alteplase (provide dose, frequency, duration of therapy, monitoring parameters, and therapeutic endpoints)”

Part III: Evaluation

ASHP will provide all participating schools or colleges of pharmacy with an answer key and judges’ notes written by the author of the local-level preliminary round case. Judges should review the case summary and answer key prior to the competition and use the score sheet provided to evaluate each team. Both the case and the answer key have been peer reviewed, but there are often several different approaches to improve therapy that may be deemed “appropriate” by the judges. ASHP asks that the evaluators use the official answer key to facilitate the most objective evaluation possible and to promote consistency among scoring.

ASHP recommends that each school recruit 2–3 judges for the competition. If possible, the same judges should evaluate all teams. Schools should host brief workshops/overviews for judges to discuss any questions prior to the competition. If a school is conducting a Preliminary Round on multiple campuses, it is suggested that all oral presentations be video recorded so that the judges can evaluate all teams simultaneously.

Judges will score the Pharmacist’s Care Plan and the oral presentation using the answer key and evaluation forms provided by ASHP. In the event of a tie, the team with the highest score on the Pharmacist’s Care Plan will be declared the winner of the local-level Preliminary Round competition.

Evaluation and Scoring of Pharmacist’s Care Plan (100 points + up to 10 bonus points)

Problem Identification and Prioritization

- The most urgent problem is correctly identified
- Problems that need to be addressed immediately or during this clinical encounter are identified
- Problems that can be addressed later (e.g., a week or more later/at discharge or next follow up visit) are identified

Therapeutic Goals

- Goals are individualized, appropriate, and realistic
 - Priority 1 goals
 - Priority 2 and 3 goals

Recommendations for Therapy

- Recommendations are individualized, realistic, and consistent with medical standards and principles of evidence-based medicine
 - Priority 1 recommendations
 - Priority 2 recommendations
 - Priority 3 recommendations

Monitoring Parameters & Endpoints

- Goals are individualized, appropriate, and realistic
 - Priority 1 goals
 - Priority 2 goals
 - Priority 3 goals
- Parameters are practical and effective measures of the desired endpoint
- Endpoints are reasonable and appropriate choices for the patient
- Frequency is reasonable for the plan and appropriate for the patient

Bonus Points

- Judges may award up to 10 bonus points at their own discretion

Evaluation and Scoring of Oral Case Presentation (100 points + 10 bonus points)

Presentation Skills (30 points)

- Verbal communication —clear, coherent, concise, complete, organized, convincing, confident
- Non-verbal behavior —eye contact, facial expressions, body language, voice, demeanor, presence
- Interpersonal—warmth, compassion, manners/tact, professionalism

Case Summarization (10 points)

- Utilization of time provided to present case

Pharmacotherapy Knowledge (20 points)

- Demonstration of knowledge that incorporates an understanding of important drug principles
- Ability to integrate drug knowledge into patient care

Defense of Recommendations (40 points)

- Problem solving and decision-making
- Therapeutic rationale
- Use of evidence to support recommendations
- Responsiveness to judges' questions

Bonus Points

- Judges may award up to 10 bonus points at their own discretion

MAXIMUM TOTAL POINTS FOR ENTIRE COMPETITION = 200 POINTS + up to 20 BONUS POINTS

Part IV: Competition Wrap-up

At the conclusion of the local-level Preliminary Round Competition, the CSC faculty coordinator should submit the ASHP Clinical Skills Competition Form B available on the ASHP website **no later than November 1**. You will need to have the following information for each of your two winning team members available in order to complete Form B:

1. First and last names,
2. Mailing addresses,
3. Preferred email addresses,
4. ASHP member ID numbers (they must be current ASHP student members to participate in the national competition.)
5. Emergency contact information for each team member (e.g., name, phone, relation)

Please let your team members know that complimentary MCM registrations will be processed by ASHP on a rolling basis and notifications will be sent sometime in the month of November.

The coordinator should return the care plan and completed score sheet to the student teams and hold a debriefing session to review the case.

Prizes/Awards

Awards may be distributed locally by the school or college of pharmacy, student society of health-system pharmacy, or ASHP state affiliate.

Please note, ASHP provides complimentary registration to the Midyear Clinical Meeting to the winning student team from each school. If the school's winning team cannot participate in the national CSC, no substitute prizes will be awarded in lieu of the complimentary registration. Registration is transferable only to individuals participating in the national competition. Additionally, ASHP cannot process a complimentary Midyear Clinical Meeting registration for a student who is not a current ASHP member.

Important Tips for a Successful Preliminary Local-Level Competition

- Publicize your competition to faculty members and students.
- Encourage students to review the practice cases online prior to the competition.
- Provide food or prizes for participants as an incentive for students to register for the competition.
- Ask your state and/or local society of health-system pharmacy about sponsoring the competition (i.e., providing lunch for the participants or prizes for the winners).
- Provide at least one set of references for every 5 teams participating in the competition.
- Hold a brief workshop/learning session for judges; make sure there is a consensus on how the case will be scored.

National Competition at the ASHP Midyear Clinical Meeting

The 2024 National Clinical Skills Competition will be held during the ASHP Midyear Clinical Meeting in New Orleans, Louisiana from December 7-8, 2024. It is a two-day event completed in two rounds. Only student teams that have qualified at a local-level Preliminary Round competition and are current ASHP members are eligible to participate in the national competition. Cases used in the national competition are in the same format as the cases used in the local-level competition, but have an advanced level of difficulty.

Detailed information (e.g., competition schedule, rules and regulations, and reference details, etc.) will be sent to student teams who advance to the national competition in November. Please be sure to provide ASHP with the correct email addresses for your school's winners to ensure prompt receipt of these materials. Contact information and ASHP member ID number for each winning team member must be submitted to ASHP via the Form B survey located on the CSC website ([ashp.org/clinicalskills](https://www.ashp.org/clinicalskills)) no later than November 1.

Semi-Final Round (national-level): Written Case – Saturday

Each student team has **two (2) hours** to complete the written portion of the competition. The written competition is a closed session—no visitors, faculty, or other students are permitted in the competition room at any time. Students are encouraged to bring a personal laptop and/or tablet (maximum 2 per team) to the competition room for research purposes and to ensure access to Lexi-Complete®, AccessPharmacy, and other online materials. Competition proctors will monitor use and notify

participants when there are 60, 30, 15, and 5 minutes remaining in the competition. ASHP will provide all other necessary materials including calculators, scratch paper, pencils, etc. for student teams to complete their written Pharmacist's Care Plans. No other personal items may be on the students' desks during the competition without permission of the competition proctors. Additionally, teams may not take anything from or bring anything into the competition room while the competition is in progress.

Final Round (National-Level): Oral Presentation – Sunday

As in the preliminary round competition, a total of **ten (10) minutes** will be allotted for each presentation, which includes a **two (2) minute presentation period** and an **eight (8) minute question and answer period**. The oral presentation should follow the same format described in the local competition instructions. The top ten finalists present their cases in random order so students should be prepared to wait up to 4 hours in a holding room until they have presented. Teams are sequestered until they complete their oral presentation.

Other meeting attendees are invited to observe the final round of oral presentations. Winners of the National Clinical Skills Competition will be announced during the MCM Opening General Session on Monday, featured on various social media platforms, and posted on the ASHP website.

Prizes/Awards

Each member of a top ten finalist team will receive an iPad, a 1-year subscription of Lexi-Complete®, a \$50 Amazon gift card, and a choice of 1 ASHP Self-Assessment Resource. In addition to these prizes, each member of the first, second and third place teams will receive a cash award (\$500, \$250, and \$100 respectively) . The first-place team will also receive individual first place trophies as well as one large first place trophy for their school or college of pharmacy.

Appendix: Clinical Skills Competition Documents

- CSC Registration Form
- Patient Case
- Pharmacist's Care Plan
- Evaluator Score Sheet – Oral Presentation

**ASHP CLINICAL SKILLS COMPETITION
PRELIMINARY ROUND (LOCAL-LEVEL) REGISTRATION FORM**

Students should register **at least 2 weeks** before the competition. Upon registering, both members of the team should receive a practice case with answer key, blank forms, a list of acceptable references and evaluation criteria.

In consideration of participating in the ASHP Clinical Skills Competition ("CSC"), each of the undersigned students agrees that he/she has not seen or discussed the substance of the preliminary round case and related answer key (the "Case") with anyone, and further agrees that he/she will not discuss the substance of the Case with anyone until the later of (a) November 1, 2024, or (b) the conclusion of the preliminary rounds of the CSC.

ASHP CLINICAL SKILLS COMPETITION PHARMACIST’S CARE PLAN

Using the patient’s data, you will be able to develop an effective care plan for your patient. Clearly define the healthcare problems. Healthcare problems include treatment of all acute and chronic medical problems, resolution of all actual or potential drug-related problems, and identification of any other healthcare services from which your patient may benefit.

Remember to think about potential medical problems for which your patient may be at risk and disease prevention and disease screening activities that may be appropriate to recommend. Also, don’t forget to consider specific patient factors that may influence your goals and recommendations for therapy (e.g., physical, psychological, spiritual, social, economic, cultural, and environmental).

To complete your care plan, specify all of your patient’s health care problems that need to be addressed. Then prioritize the problems into one of three categories: (1) Most urgent problem, (2) Other problems that must be addressed immediately (or during this clinical encounter), OR (3) Problems that can be addressed later (e.g. a week or more later/at discharge or next follow up visit). Please note that only **one** problem should be identified as the “most urgent problem.”

Then **for each problem** describe the (1) therapeutic goals, (2) recommendations for therapy, and (3) monitoring parameters and endpoints. Your monitoring parameters should include the frequency of follow-up and endpoints should be measurable by clinical, laboratory, quality of life, and/or other defined parameters (e.g., target HDL is greater than 50 mg/dL within 6 months).

List all health care problems that need to be addressed in this patient using the table below.

A. Prioritize the problems by indicating the appropriate number in the “Priority” column below:

- 1 = Most urgent problem (Note: There can only be one most urgent problem)**
- 2 = Other problems that must be addressed immediately or during this clinical encounter; OR**
- 3 = Problems that can be addressed later (e.g. a week or more later)**

**Please note, there should be only a “1”, “2”, or “3” listed in the priority column, and the number “1” should only be used once. When identifying individual problems for the case, use more specific terms when possible vs. general disease conditions. Also, use actual rather than weight-based doses when providing recommendations for therapy.*

Health Care Problem	Priority	Recommendations for Therapy	Therapeutic Goals & Monitoring Parameters

ASHP CLINICAL SKILLS COMPETITION

Oral Case Presentation Score Sheet

Team _____ Evaluator _____

Scores are graded as whole numbers on a continuous spectrum from 1-5 or 1-10, with 1 being poor and 5/10 being excellent (respectively).

SCORE	EVALUATION CRITERIA	COMMENTS/FEEDBACK
Communication Skills (10 Points Total)		
____/5	Verbal communication —Both presenters are clear, coherent, concise, complete, organized, confident, and convincing	
____/5	Nonverbal behavior—Both presenters maintain appropriate eye contact, facial expressions, body language, demeanor, and professionalism	
SUBTOTAL _____/10		
Case Summarization (10 Points Total)		
____/5	Utilizes time provided appropriately to present case	
____/5	Provides a clear and concise summary that ensures a person unfamiliar with case would understand primary problem	
SUBTOTAL _____/10		
Pharmacotherapy Knowledge (50 Points Total)		
____/10	Demonstrates knowledge that incorporates an understanding of important medication principles	
____/10	Integrates medication knowledge into patient case	
____/10	Displays strong problem-solving and decision-making	
____/10	Identifies and explains therapeutic rationale	
____/10	Uses evidence to support recommendations	
SUBTOTAL _____/50		
Q&A (30 Points Total)		
____/10	Provides succinct and clear responses to questions	
____/10	Provides answers based on sound, clinical knowledge and solid rationale	
____/10	Displays persuasiveness and confidence in decisions (e.g., demonstrates ability to advise a clinical team)	
SUBTOTAL _____/30		
TOTAL _____/100		

Final Oral Score _____ + Written Score _____ = Overall Score
