

## **Preceptor Qualifications – Requirement in PGY1 Managed Care Pharmacy Residency programs**

### **Overview: Description of requirements for preceptor qualifications for Standard 4.6.a Content knowledge/expertise in a PGY1 Managed Care Pharmacy Residency program**

**What is the requirement for preceptor qualifications related to Standard 4.6.a content knowledge/expertise in the area(s) of pharmacy practice precepted in a PGY1 Managed Care Pharmacy Residency program?**

The guidance provided in the accreditation Standard 4.6.a lists many options for preceptors to meet this qualification requirement, however, many of the options are not relevant to many preceptors in managed care residency programs. Some certificate programs may be relevant to some managed care residency preceptors which are in alignment with the following guidance:

Certificate of completion in the area precepted (minimum eight contact hours or equivalent college credit) from an ACPE-accredited certificate program or accredited college/university.

**What are some certificate programs which may be relevant to preceptors in managed care residency programs?**

The following certifications/programs will qualify a preceptor under 4.6.a of the PGY1 managed care pharmacy residency standard, if the preceptor is precepting a learning experience related to this certification/program.
